# A PERGOLA

The perfect outdoor space.

The refreshment of nature is waiting—in your backyard. All you need to unwind and enjoy family and friends is the time-honored pergola.

The most open and airy of outdoor structures, pergolas block none of the gentle, refreshing breezes you want, while letting in a welcome portion of the sun's warming rays.

Pergolas are adaptable. For a more private area, side curtains are attractive and easy to add. For more protection against strong sun or light rain a variety of covering options are possible, from fabrics to fiberglass to retractable shade canopies.

When woven throughout the top beams, cloth coverings are both beautiful and functional. Cover a pergola with vines or lush greenery and you have an eco-friendly solution for keeping out unwanted sunlight and staying dry in mild showers.

When it comes to style, you can choose from our classic and contemporary designs in a range of looks that will match your home and personal taste. Plus, our wide variety of sizes means you'll find one that perfectly fits the space you have available.
